Unleash the Nano.
Q-SYS Core Nano (purely network I/O processor) with distributed I/O endpoints

Connected Meeting Room

Standard CAT-5/6
USB 2.0 or Higher
Mic/Line
Loudspeaker
HDMI
GPIO

In-room Rack

Q-SYS NS Series Gen 2 network switch

Attero Tech A4Flex

Q-SYS Core Nano processor

NV-32-H (Decoder)

Q-SYS PTZ-IP camera

Q-SYS touch screen controller

Dante-enabled ceiling microphone

AcousticDesign™ Series loudspeakers

NV-32-H (Encoder)

Shades (controlled via GPIO)

With the Q-SYS Core Nano + Attero Tech by QSC A4Flex:

- An alternative to the Q-SYS Core 110f processor + SPA Series amplifier with right-sized I/O for the space.

- Plenty of network channel capacity to manage the audio, video and control processing for the space.

- The A4Flex integrates analog devices, along with its integrated power amplifier for the room's loudspeakers.
